The Washington Light-Infantry Corps and the High-School cadets, headed by the United States Marine Band, had marched down Pennsylvania avenue to the railroad station shortly before the arrival of the train, and during the stay of the bell in this city acted as its guard of honor. At the station were assembled the District commissioners, a committee from the Board of Trade, the Sons of the Revolution, and Sons of the American Revolution, and a reception committee. As Mayor Warwick stepped to the platform he was greeted by President Ross of the Board of District Commissioners, who delivered an address of welcome. The Mayor responded briefly, and after the reception party had been given a chance to view the bell, the Philadelphia contingent and their hosts were driven to the rooms of the Board of Trade, where luncheon was served. The car containing the bell was switched to a siding, and for the brief period it remained in Washington was viewed by crowled of people.

The Mayor and Council, the school children, white and colored, were all at the depot. In fact, the entire population were gathered for the receiption.

When the whistle of the locomotive was first heard the signal was given, and the bells of all the churches and public buildings, together with the whistle so of the different manufacturing establishments, sent out such greeting as was never heard here before.

The bell and its escort were welcomed to our city in an eloquent and appropriate address by W. Seymour White, Esq. Mr. White's remarks were fittingly and teelingly replied to by his Honor, the Mayor of Philadelphia.

A pleasant feature of the occasion was the presence of the hundreds of school children, who, decked in their bright autumn wraps, made a pretty picture. During the stay of the train here many of the excort took occasion to drive around our historic old town. It was the first visit of some, and they were surprised at the evidences of thrift they saw.

At the conclusion of the speaking a fine was formed, and the crowd, marching past the car, viewed the bell.

ASHLAND, VA., October 4.—(Special.)—
The citizens of this place, to the number of at least 40, turned out this afternoon to welcome Liberty Bell and its escort en route for Atlanta. Mayor Taylor and the Town Council, the Fire Department, the United Order of American Mechanics, the public-school children, the professors and students of Randolph-Macon College, and citizens generally participated in the reception. As the train pulled in the Neille Grant fired a salute and the frebeil was rung. On behalf of the Mayor, Captain Richard Irby delivered an address of welcome, which was responded to by Mayor Warwick, of Philadelphia. Henry Clay, member, of the City Council of the same city, also made a few remar's. The specches were very particite. As the train left the whole concourse sang "America." nil bring this matter up as easting. Speaking of woman suffrage, he said, cith a wise shake of his head, that there ere many more advocates of woman iffrage on the floor of the convention han any one dreamed of, and the adoption of a woman-suffrage plank, placel on a property qualification, was not such in impossible thing as it was generally in impossible thing as it was generally

on a property qualification, was not such an impossible thing as it was generally supposed to be.

As to the article of the Suffrage Committee, he said that the pian could not honestly accomplish the desired result, it was far from getting at the disfranchisement of the negroes by honest and fair means. A plan that had occurred to him to do away with two-thirds of the negro vote without refusing the bailot-hox to any near complying with honest requirements was to take advantage of the inigratory habits of the negro. By having township managers and boards, and requiring a voter to live in the same township two years to be eligible, two thirds of the negroes would be disfranchised honestly and no white man would be hurt, for the white people are chained to the land.

He did not think the convention would leave the appointment of the commissioners and managers of elections to the Governor. What they wanted was the government of the people by the people. Who were better able to judge of the stadifications of a voter than the people of the township wherein the voter toxides? This was local self-government. The scheme reported was to perpetuate one-man power.

cendlary. All fire was extinguished in the engine-room at 6 o'clock, and the building was inspected by one of Mr. Stagg's clerks at that hour. At 11 o'clock the private watchman in that neighborhood made his rounds, and went through the building, with a friend. No sign of any fire was noticed then, but in the short space of an hour thereafter the whole lower story was engulfed in flames. which rapidly communicated to the other

which rapidly communicated to the other apartments, and ere the firemen could get to work on it the building, with its contents, was a total loss.

Mr. Stagg was not on the scene of the fire, but his book-keeper estimated the loss at between \$0.000 and \$0.000. This estimate includes the building, which is owned by Mr. Stagg. The loss will be peculiarly heavy on Mr. Stagg, as he carried only about \$30,000 insurance, and a portion of this is in the Mechanics' First Insurance Company; of which he is the president. Two horses stabled in the building were burned to death.

Much credit is due the fire department for the excellent and skilful manner in which they combated the flames. At one time the buildings of Kingan & Co. and J. D. & R. S. Christian were threatened, but the fire was kept within the four walls of Mr. Stagg's mill.
